Response to Official Communication Regarding Sequence Listing TECH CENTER 1600/2900

United States Patent and Trademark Office
BOX SEQUENCE
P.O. Box 2327
Arlington, VA 22202

This is with reference to the Official Communication dated July 2, 2002 regarding the Sequence Listing for the above-referenced case. The Official Communication stated that the paper copy of the sequence listing is not the same as the computer readable copy of the sequence listing. However, Mr. Mark Spencer of the US PTO advised me in a telephone conversation on July 10, 2002 that the Official Communication did not correctly identify the problem with the sequence listing. According to him, the computer disk containing the sequence listing was damaged at the PTO for reasons related to anthrax screening of the mail and, therefore, in response to the aforesaid Official Communication, Applicants only need to provide a copy of the computer disk that was earlier submitted. Accordingly, please find enclosed herewith a substitute floppy disk containing a copy of the sequence listing in a computer readable form for the above application.

This response is timely filed. Accordingly, no fee is believed to be due.

However, the Commissioner is hereby authorized to charge any fees that may be required in connection with this matter to Deposit Account No. 50-1192, Docket No. 13761-0734. *A duplicate copy of this sheet is enclosed.*

Respectfully submitted,

McCutchen, Doyle, Brown & Enersen, LLP
